

## Website Development for the *Alliance for Sustainability*

The [S.H.E. Kindness School Program](#) is designed to build on the nonprofit's Alliance for Sustainability's nearly 40 years of experience successfully providing thousands of sustainability education presentations and developing and implementing action plans with numerous schools, colleges, businesses, cities, government agencies, and congregations. It will inform, inspire, and engage students, teachers, staff, administrators, and parents in taking action to bring about sustainability, health, equity, and kindness at school, home, and in the community.

Currently leading the design of a website for the program that will:

- Inspire students to take action on everything from lifestyle and consumption to campaigns and policy changes.
- Share a variety of educational content with videos, articles, podcasts, and other tasks.
- Allow students to track sustainability actions on a regular basis, converting them into quantifiable metrics that can be shared with teachers and parents.

More is coming soon!
